ScratchC{}de Technologies

{WE MAKE IT POSSIBLE}

INTRODUCTION

Scratchcode brings ideas to life by capitalizing on its core competency in software product development. Scratchcode's focused expertise and approach is designed to help you by converting your ideas to real life products. Scratchcode technologies focuses on bringing together innovation, domain knowledge, technology strengths and an excellent team to deliver quality software which enables customers to run their business with maximum efficiency.

Scratchcode's core specialization is in enterprise applications. Scratchcode's team of technologists comprises software architects, engineers, localization consultants and domain experts. Scratchcode's simultaneously emphasizes technical expertise, domain knowledge and soft skills and has a highly trained talent pool that stays focused on the cutting edge of software trends..

WE HAVE CORE COMPETENCIES IN A NUMBER OF AREAS, INCLUDING:

◆ Microsoft asp.net application development

◆ Application migrations solutions

◆ Database migration

◆ Web portal solutions

◆ E-commerce solutions

◆ PHP application development

WE HAVE IDENTIFIED FEW AREAS WHERE WE COULD ADD VALUE:

◆ Design and development of cost effective enterprise-level web applications

◆ Creating custom applications on .net platform

◆ Creating new business application from scratch

◆ Migration of current application to .net platform Expertise in database like MYSQL, MS-SQL server 2008 and above
